**ABSTRACT**

This file reflects the initial concept for a small group of high-level across-the-board intell experts who would produce World Situation Estimates. Otherwise discussed are relationships of this staff with other government components; work produced by the Group and the role of the Group in intell coordination. Included is a 3-page statement on the Global Survey Group. The file concludes with the formation of a special staff to advise on intell estimates deriving from the Korean conflict.
